Dear Mom!

From S. Francisco came the slippers, which came back so quickly. Yesterday I also got a small package with the knitted gloves for my dear mother-in-law, who was very happy about them. Yesterday a letter also came from Aunt Emi, who also sends her greetings and reads to him. From Aunt Emi the children also received a lovely little wooden horse. It was said to be on and lost, then it had a skill or a thigh, that is then already very perfect, nq, Aunt Emi now has more than Christopher, on Sylvanas's birthday (90th) born. One received from Japan a skill, free of charge, the inner side for the emigrants. It is one for the winter initial equipment of the Eiger climber in summer with a wreath of autumn fl. of the school. I only want to have proven so much and what one of course a beautiful Christmas- like card with a picture of our house in winter received. The copy of the "Eigenheim," which was made at some point. It is really great and one thing was the view of you all we could never have made better, that was verbenabeautiful. We cost here 8.60. from you (240 DM) Warmest greetings, also from Eve, Your Dolfi
