Mrs. E. Hofmann Stetten / Meersburg Bodensee Germany!

Dear Folks! Just a sign of life today from San Francisco and our trip. The weather is beautiful, that is, right now we are standing in Death Valley and the oversized street, right in the middle of the worst hustle and bustle I have ever experienced, how much easier to tell about it than when isolated in the desert. Just interesting, there will be pictures in droves, already 3 color films and 5 black-and-white, more in a letter. Warmest greetings, Dorel.
