you wrote at Christmas to Germany, in order to die there. I don't believe that they you stay, but they want to try it. We always always want to come too, another few, that I know of us, if they could work, once when it's about for once and for all sleeping. Don't you think that that would be a help 2 or straps after all redeem and to the ducks it could after all. Clearing around the household do. The work in the bank is a lot of fun. We are really a nice group. Push every day, often we go all together somewhere something, play chess or something else, our director and wife are included. When we someone see just a good we have an excuse with coffee. The director asks us if we would rather have a boy or a girl. Then, when the boy came, once hire, the director says to me, once say over, I was on all he is good and capable. Every day customers come to the director flatter and complain for the friendly service. that they receive from us. wild= We know Bernali all. [smudge] once know once from them, what they think. we only look in the morning through the window pane and know if the peace once fear without his wife once sometimes bought. the man knows if and once I got salt. the feet hurt, and has no private work hardly interested anymore. be, when you tell each other something for the work off, and as if one case the work in any case very interesting and represents with not changing anymore. There interested and as if one a excited, because our Brandl is known for that! especially happy it is him, and especially all old pensioners. To us and then tell us stories. I can then all whole Selber-stories. The good ones and so happy when they one it: can each. When then a partirischen. The good ones is paid with nothing, we know everything that is going on. When we in the morning the checks from the other clerks and banks get and so = doors and check, then we see our customers and what so for example. Then we tell each other while sorting. "Mrs. G. has bought herself a new dress again and hasn't even been able to pay the electricity bill yet." or: "Mrs. S. has finally had her baby, there she got herself a hospital" You might think that this is foolish gossip, but it is very interesting and we stuns tell it to one of the people afterwards anyway. One gets to know so many people also at lunch. Some people invite you and many or those, to whom we tell, can come every day, that they because of our gt with our bank, with the Canadian Bank of Commerce and are one as the biggest bank in Canada, the 6th in the world. We are 1500 employees alone. one branch is in Zurich. In the new bank the promotion possibilities are much better, maybe can up to Assistant-Manager rise.
