Vancouver, Dec. 19/60

Dear Ursel! I wish you a very restful Christmas season and a good new year. Hopefully you received a greeting and a little package from us? And how are you? Or the boy? Is your sleeping going badly or is Ovaltine helping? I think about that and often about your fate and it makes me very sad. I'm lazy too, which I can't afford at all. I can't be lazy, because I don't have time for it, and full, that is my laziness. I have done my gymnastic exercises, I have made alcohol once, I have once done other exercises, the Brandenburg Gate and a deep knee bend, and once I have for sleeping now oil, so that I sleep well, and when bending at the knees, and once and I do the exercises so I'm not so stiff, right? Yes, situations were in all agree- calculated, that we the hours sleep, so their whole life we Saturday and Sunday, 3 weeks vacation, 21 days, and sometimes 8-10 days, that is, yes, rare, in the past one was still, like us in Berlin in a hut? I once in one year wanted more than a European in 9 months buys, I have once 70 days, then once in the remaining 5 months 106 days in the year.
