Brownsville, May 1st

Dear Mother! For your birthday, I wish you all the best, but above all to be completely healthy and to have good help. The professors are once again not so great, so it's not so bad for you. Well, perhaps Magdalen will give you a few nice weeks so you can get a proper rest. The upright ones in the last week have turned really green. The hot cherries are also all on bushes here. I haven't seen any standards yet. But in a week we will be finished with the experiment, then we'll get right to it. Sunday is "Blossom-Tuesday," when people from Canada and the U.S.A. drive through the area and look at the blossoms. In two weeks, the "Niagara Barn Theatre" by Shathourne's will open. It is very nice, and also very good. It is just a cellar, with a bar and a dance hall. There are plays every evening from May to November. A theater is something very rare in Canada now. Here, people go to the cinema every evening, that's enough.
